Koch Chemie Po Pol Star - Textile, Leather & Alcantara Cleaner pH 7 - 1L

KC92001

Effective neutral cleaner with protection formula for leather, alcantara and textiles such as upholstery and carpets. The dirt is removed from deep in the fibres by fine-pored foam lamellas and can be wiped up with a wet/dry vacuum cleaner or a damp cloth. Does not leave any water marks and preserves the original waterproofing. The conserver protects the parts against becoming dirty again quickly.

Areas of use

Leather, alcantara and textiles, etc

Recommendations of use

Depending on the dirt accumulation, apply a 1:5 to 1:20 solution with a spray bottle, microfibre mitt or similar and allow to react for a short time.

Work in carefully with a sponge or microfibre cloth in the direction of the main fibres. Wipe up product residues and foam with a damp cloth or a wet/dry vacuum cleaner.

For use in spray extraction and other carpet/upholstery cleaners we recommend the addition of Kocentschäumer defoaming agent.

Warnings

Before using, check colour fastness and material compatibility.
